About This Game

Snake 3D Adventures is an arcade platformer with cute cartoon graphics. Your objective is to reach the exit within time limit by doing skillful moves, solving puzzles, avoiding traps, and defeating enemies. Also, catch as many eggs as you can: only a lengthy and well-fed snake can unlock the exit!

Snake (his name is Sidey, by the way!) will meet many challenges at various locations. He will visit forests, desert, and icy mountains! He will fly magic carpets and travel through the fifth dimension using teleports! But be careful! Sidey's path is full of enemies and mighty bosses, and each type has its unique abilities. You will meet menacing wolves, angry skeletons, spooky ghosts, and many more!

- Sidey likes to eat eggs. The more eggs he eats the longer his tail grows. At the end of each level you will find scales, and only by standing on them having enough weight you will pass the check and open the way out.
- Each level has a time limit, so you gotta hurry! No delays or doubts, only a rush forward to victory! Hidden bonuses will help you move faster or give you more time. But they are rare and hard to obtain, so keep an eye out!
- The game keeps track of how well you perform: every positive action gives you points. The greater the final score, the more stars you get! Also, by submitting your scores to the global leaderboards you can show everybody just how awesome you are!

Fear Equation is another icon for Screwfly Studios, and I recommend that game to anyone like that type of games.. Extremely frustrating and challenging, but definitely worth it.. I'm not sure what I expected from this. The scenery is beautiful and the atmosphere is very creepy at the start. However, as the story unfolds, it gets a bit too far-fetched for me. But if other-worldly adventures are your thing, then I imagine this would be great. It's a decent way to kill a few hours and I'm not upset I gave it a try. 7/10. Excellent quality for the price. Absolutley brutal and sustained combat in this dlc. Still have not finished the first turn of the 23 turn campaign and have put in like 15 hours already. The fortifications west of novo alexandrovkiy with the barbed wire, the pre existing trenches with supporting fields of fire, the concrete pillboxes are great fun and the addition of panzernests adds some new spice for infantry. Hope to see more fortifications and earthworks in the future. Amazing job as usual by Graviteam.. Buy this game if you enjoy playing solitaire and killing zombies. The humor and cartoony graphics are what make this game fun to play. You kill zombies by removing cards. You can purchase a maximum of three special cards like wild cards at once. The special cards and the search for hidden items between the levels make this game more fun to play than a typical game of solitaire. I thought this game would be really short. I thought there would be a maximum of 25 levels at most. There are 103 levels. The levels become more difficult because of the way the decks are arranged. There are also special cards in the decks that make the game more difficult. Something else I like about this game is that it was designed to work with wide-screen monitors. Most solitaire games have stretched graphics and blurry details if you try to use a wide-screen monitor to play them. Try to finish a level without buying an extra deck of cards from the shop. That's the real challenge of this game.

Steam really needs to purge these Early Access titles that seem to be going nowhere or end up releasing paid DLC while still in "development"...

It does have a tutorial that you can "scip" though, so it has that going for it.... it's terrible but i paid 11 cents for it and turned a profit on the cards so i guess it was worth an hour and 10 easy achievements. So cool and motivational movie.. This game is great! It's fun for anyone and totally worth \$4.99! Totally! Completely! Buy it!. Can someone please help me get this thing working on the rift dk1. i have tried everything possible and no luck.. There wasn't enough visual silliness in this instalment, so...
